

Matthew Efthmiades
126 Assistant Chief Report
Meeting 2/10/2025

This past month was very eventful with some changes happening in and around the department.

Membership

Chief, myself, Bovi, Tommy, Cam, David, John and Connor all attended the Eng ops side charlie lecture this past friday and had a great time and learned and took away some valuable things from it.

Trucks/vehicles

The new rear bump was ordered, we are just waiting on it to show up. But in the meantime Ed has taken the time to straighten out the old bumper for now. So big thanks to him for taking the time for doing that. If the trucks go out and it is below freezing outside please make sure the pump heaters are on and for the RE make sure it is circulating water. Both the squad and the chief buggy were inspected.

Building/property

There are two broken fence pieces around the pond that need to be replaced. Both bathrooms are finally finished. The RE bay has been repainted. The new camera system was installed and up and running. The corresponding network is almost finished. The speaker system is finished. New can lights were installed in the front of the bays above the front of the trucks. A vent from the ems furnace was added into the kitchen as well as that door to the outside and the front door were both resealed. Timers were added to all the garage doors and set to 5 min. The current openers will not shut the door just dive away Do NOT try and close the door with the remote IT WILL NOT WORK. All major projects by Tommy and myself are on hold till after Fish fry unless an emergency occurs. If you notice something broken or not working please let me know and I will add it to the list.

Any questions please ask at the meeting or feel free to reach out to me directly by Email.
